

WORK FROM HOME POLICY FROM 23-MARCH-2020 TO Current

Policy brief & purpose

We have designed our **work from home policy** to make sure that working from home is beneficial to our employees and company for the period mentioned in the title. This is to manage the CoronaVirus pandemic situation better and contribute to the social cause of mankind.

Scope

This company work from home policy applies to all our employees who prefer and are equipped with working from home during the period of 23-March-2020 to further instructions.

Who is allowed to work from home?

Employees are allowed to work from home only if their job duties permit it. For example, people who are obliged to come in direct physical contact with customers are not eligible to telecommute under this policy. But, employees who carry out most of their work on a computer can work off-site.

Employees are allowed to work from home only if they have a required work environment available at home at least during office hours.

Which includes, but not limited to following requirements. We request you to self-certify the prerequisite to be able to work from home by ticking against each item and validating it with your line manager and HR manager.

WORK FROM HOME POLICY FROM 23-MARCH-2020 TO Current

What if I fail to meet the above requirements ?

Management keeps all rights to decide the compliance of above requirements and can recall you back to work from the office at any time.

In case you are willing to work from home but infrastructure is a limitation ?

You should resume back at the office, in case you do not have a sustainable work environment at home.

How to determine whether an employee can start work from home

We advise both employees and managers to consider the above elements before considering/approving work from home.
